Amendments to the Claims:

The listing of claims will replace all prior versions, and listings, of claims

in the application:

Listing of Claims:

1. (Currently Amended) A data processing apparatus comprising:

means for initiating saving of a content of an Internet page displayed by

the a browser in response to one click of a single button displayed on the

browser;

means for acquiring the content of the currently displayed page from the

browser:

means for indexing, said means for indexing assigning a predetermined

index to data acquired by said means for acquiring; and

means for data saving the acquired data with the assigned index in a

predetermined storage unit upon initiation of saving through said means for

initiating.

2. (Canceled)

3. (Previously Presented) The apparatus according to claim 1, wherein said

means for acquiring obtains the URL of the currently displayed page and said

means for indexing assigns the URL or a selected part thereof to the data as the

predetermined index.

4. (Previously Presented) The apparatus according to claim 1, wherein said

means for acquiring obtains one of either a keyword or a title embedded in a

page displayed in said browser, said means for indexing assigning the keyword

or the title to the data as the predetermined index.

5. (Previously Presented) The apparatus according to claim 4, further comprising

means for displaying one of either the keyword or the title acquired by said

means for acquiring.

6. (Original) The apparatus according to claim 1, wherein the index includes a

time when the data is saved.

7. (Original) The apparatus according to claim 1, further comprising:

means for sorting indices of the data in the storage unit; and

means for displaying a result of the sorting by said means for sorting.

8. (Previously Presented) The apparatus according to claim 7, further comprising

means for selecting an index from the indices displayed on said means for

displaying.

9. (Previously Presented) The apparatus according to claim 8, further

comprising:

means for initiating deletion of the selected index; and

means for deleting the selected index, said deleting based on an

instruction from said means for initiating deletion.

10. (Original) The apparatus according to claim 9, wherein said data to which the

selected index is assigned is maintained in the predetermined storage unit.

11. (Original) The apparatus according to claim 9, wherein said data to which the

selected index is assigned is removed from the predetermined storage unit.

12. (Original) The apparatus according to claim 9, wherein said means for

initiating deletion selects an instruction from a menu displayed, said selection in

response to a user-action.

Attorney Docket No. 103251 58981US

13. (Original) The apparatus according to claim 12, wherein said user action is a

click of mouse button, said apparatus being capable of recognizing said click.

14. (Previously Presented) The apparatus according to claim 8, further

comprising means for displaying a URL of the data to which the selected index is

assigned.

15. (Previously Presented) The apparatus according to claim 8. further

comprising means for informing whether the content of the page to which the

selected index is assigned has been saved.

16. (Original) The apparatus according to claim 15, wherein said means for

informing is configured to further provides information regarding time of saving

content.

17. (Original) The apparatus of claim 1, wherein said means for indexing assigns

said index automatically.

18. (Previously Presented) The apparatus of claim 1, further comprising a means

for retrieving data from said predetermined storage unit.

Attorney Docket No. 103251.58981US

19. (Original) The apparatus of claim 18, wherein indices of said retrieved data

are displayed to a user in accordance with the time of creation of said data

associated with said indices.

20. (Original) The apparatus of claim 18, wherein indices of said retrieved data

are displayed to a user in accordance with organization name associated with

data.

21. (Original) The apparatus of claim 18, wherein indices of said retrieved data

are displayed to a user in accordance with keywords of said data.

22. (Original) The apparatus of claim 18, wherein indices of said retrieved data

are displayed to a user in a sorted order of domain names of Internet locations

where said data was initially obtained.

23. (Original) The apparatus of claim 18, wherein selecting an index to retrieve

stored data causes said data to be displayed in a browser window actively being

used.

24. (Currently Amended) A method for processing data in response to a user,

comprising:

Amendment Dated: January 9, 2008 Reply to Office Action Mailed: October 9, 2007

Attorney Docket No. 103251,58981US

initiating saving a content of an Internet page displayed by a browser [[,]]

in response to one click of a single button displayed on the browser;

acquiring the content of the currently displayed page from the browser;

assigning a predetermined index to data acquired by said means for

acquiring; and

saving the acquired data with the assigned index in a predetermined

storage unit upon initiation of saving the content.

25. (Previously Presented) The method according to claim 24, further comprising

receiving an instruction for activating saving of the content of the currently

displayed page.

26. (Previously Presented) The method according to claim 24, wherein said

acquiring comprises obtaining the URL of the currently displayed page and said

assigning comprises assigning the URL or a selected part thereof to the data as

the predetermined index.

27. (Previously Presented) The method according to claim 24, wherein said

acquiring results in obtaining of one of either a keyword or a title embedded in a

page displayed in said browser, said indexing assigns the keyword or the title to

the data as the predetermined index.

Serial No. 09/938,866 Amendment Dated: January 9, 2008 Reply to Office Action Mailed: October 9, 2007 Attorney Docket No. 103251.58981US

- 28. (Original) The method according to claim 27, further comprising displaying one of either the keyword or the title acquired.
- 29. (Original) The method according to claim 24, wherein the index includes a time when the data is saved.
- 30. (Original) The method according to claim 24, further comprising: sorting indices of the data in the storage unit; and displaying a result of the sorting on a display device.
- 31. (Previously Presented) The method according to claim 30, further comprising selecting an index from the indices displayed.
- 32. (Previously Presented) The method according to claim 31, further comprising: initiating deletion of the selected index; and deleting the selected index in response to said initiating deletion.
- 33. (Original) The method according to claim 32, wherein said data to which the selected index is assigned is maintained in the predetermined storage unit.

Serial No. 09/938,866 Amendment Dated: January 9, 2008 Reply to Office Action Mailed: October 9, 2007 Attorney Docket No. 103251,58981US

34. (Original) The method according to claim 32, wherein said data to which the

selected index is assigned is removed from the predetermined storage unit.

35. (Original) The method according to claim 32, wherein said initiating deletion

results in selection of an instruction from a menu displayed to a user, said

selection in response to a user-action.

36. (Original) The method according to claim 35, wherein said user-action is a

click of mouse button.

37. (Previously Presented) The method according to claim 31, further comprising

displaying a URL of the data to which the selected index is assigned.

38. (Previously Presented) The method according to claim 31, further comprising

informing whether the content of the page to which the selected index is assigned

has been saved.

39. (Original) The method according to claim 38, wherein said informing further

provides information regarding time of saving content.

Serial No. 09/938,866 Amendment Dated: January 9, 2008 Reply to Office Action Mailed: October 9, 2007 Attorney Docket No. 103251,58981US

40. (Original) The method of claim 24, wherein said index is assigned

automatically.

41. (Previously Presented) The method of claim 24, further comprising a means

for retrieving data from said predetermined storage unit.

42. (Original) The method of claim 41, wherein indices of said retrieved data are

displayed to a user in accordance with the time of creation of said data associated

with said indices.

43. (Original) The method of claim 41, wherein indices of said retrieved data are

displayed to a user in accordance with organization name associated with data.

44. (Original) The method of claim 41, wherein indices of said retrieved data are

displayed to a user in accordance with keywords of said data.

45. (Original) The method of claim 41, wherein indices of said retrieved data are

displayed to a user in a sorted order of domain names of Internet locations where

said data was initially obtained.
